cut-e achieves Oracle Validated Integration with Oracle Taleo Enterprise Cloud Service

PROVIDENCE, R.I. (March 13, 2014): cut-e GmbH, a leader in the design and implementation of online assessments for the recruitment, selection and development of business people and a Gold level member of Oracle PartnerNetwork (OPN), today announced it has achieved Oracle Validated Integration of its online assessment tools with Oracle Taleo Enterprise Cloud Service, a component of Oracle Talent Management Cloud. The news was announced today by cut-e's Founder and CEO, Dr Achim Preuss.

To achieve Oracle Validated Integration, Oracle partners are required to meet a stringent set of requirements that are based on the needs and priorities of its customers. Many cut-e customers use Oracle Taleo Enterprise Cloud Service for recruiting, onboarding, performance management, goals management, succession planning, learning and development.

"We are pleased to be recognized for our talent recruitment and employment assessment integration with the industry's broadest cloud-based talent management platform," states Dr Preuss. "Our online assessment tools integrate virtually seamlessly with Oracle Taleo Enterprise Cloud Service, enabling HR managers at our client companies worldwide, to leverage employee talent to drive improved performance and business success."

"Achieving Oracle Validated Integration gives our customers confidence that the integration between cut-e's online-assessment tools and Oracle Taleo Enterprise Cloud Service is functionally sound and performs as tested," states Kevin O'Brien, senior director, ISV and SaaS Strategy, Oracle. "For solutions deployed on-premise, in the cloud, or both, Oracle Validated Integration applies a rigorous technical review and test process that helps to reduce deployment risk and improves the user experience of the partner's integrated offering."

About cut-e

Established in 2002, cut-e (pronounced "cute") is a leader in the design and implementation of online tests and questionnaires for use in the recruitment, selection and development of people in the business world. cut-e assesses more than four million people per year in over 70 countries and in 40 languages. cut-e provides the tools, experience and knowledge for the scientific measurement of human factors that enable people to make informed decisions about their business, their staff, their own career and their life. About Oracle Validated Integration

Oracle Validated Integration, available through the Oracle PartnerNetwork (OPN), gives customers confidence that the integration of complementary partner software products with Oracle Applications and specific Oracle Fusion Middleware solutions have been validated, and the products work together as designed. This can help customers reduce risk, improve system implementation cycles, and provide for smoother upgrades and simpler maintenance. Oracle Validated Integration applies a rigorous technical process to review partner integrations. For more information, please visit Oracle.com at
